

SPARK GLOW

Experience the SPARK GLOW, the powerful solutions for effortless fire pit ignition. Our system features unparalleled performance, with a manual gas adjustment, valve, you can easily control the flame height to your liking. It's a cost-effective option that delivers consistent performance.

HOW IT WORKS:

The SPARK GLOW is the perfect addition to any outdoor living space. With its modern design, this system adds a touch of elegance and ambiance to any setting. It's LC certified, ensuring that it meets the highest safety and quality standards.

One of the great features of the SPARK GLOW is its upgraded gas valve. This allows you to achieve higher flames, giving you more control over the intensity of your fire. The quick start ignition system, similar to that found on BBQ grills, provides you with an easy and hassle-free way to ignite your fire pit.

Not only is the SPARK GLOW easy to use, but it also provides peace of mind with its reliable and safe operation. Its design is perfect for both residential and commercial use. You can enjoy the warmth and beauty of a real fire while feeling secure in the knowledge that you have a safe and reliable system.
